

## **Declaration of Conformity**

**acc. Directive 2014/68/EU**

**Manufacturer:** PROVALVE Armaturen GmbH & Co. KG  
Am Stadtberg 2a  
D-39167 Niederndodeleben, Germany

**Description of Equipment:** Industrial valves

**Type:** Gate valves, Globe valves, Control valves, Butterfly valves,  
Ball valves, Plug Valves, Check valves, Strainer

**Diameter Nominal \*):** DN15 up to DN1600 / NPS ½" – 64"

**Pressure Nominal:** PN6 up to PN630 / ASME Class 125 - 4500

**Materials:** ferritic, austenitic, duplex-/superduplex alloys,  
nickel based alloys

**Medium:** liquid, gaseous – fluid group 1 and 2

**Conformity assessment  
procedure followed:** Annex III, Module H

**Name of the Notified Body  
for pressure equipment:** TÜV Nord Systems GmbH & Co. KG  
Große Bahnstraße 31  
D-22525 Hamburg, Germany

|-------------------------------------------------|-------------------------------------------------------------------------------------------|
| <b>TÜV NORD No.:</b><br><b>Certificate No.:</b> | <b>CE 0045</b><br><b>0045/202/1001/Z/00107/23/D/001(00)</b><br><b>valid until 07/2026</b> |
|-------------------------------------------------|-------------------------------------------------------------------------------------------|

\*) All valves in size  $DN \leq 25$  (1") comply with article 4, clause 3 and are not permitted to be marked neither with the CE characters nor with the notified body code.

**Directed use of Pressure Equipment:**

The valves are to be used in pipes to prevent the backflow or to control or stop the medium flow with the allowed pressure and temperature range taking in to account the chemical and corrosive effects on the pressure equipment.

The medium resistance of the valves must be checked for conditions of use.

**We declare that this Pressure Equipment conforms to Directive 2014/68/EU.**

Niederndodeleben, 01.08.2023

**PROVALVE Armaturen GmbH & Co. KG**

Rene Beyer, General Manager
